The green waste and dry waste is segregated at the college level by a diligent team of cleaners and sweepers who collect the green waste including leaves of trees into separate bins. The green waste is then deposited in the central Compost pit area. The compost thus generated is used as fertilizer for the gardens and trees along the pathways and in open areas. The other dry waste like paper, plastic wrappers, bottles, and other solid material that is discarded because it has served its purpose or is no longer useful. All such material is stored in bins and disposed in the collection vans that are dispatched by the Nashik Municipal Corporation. The campus thus remains garbage free and clean. Old newspapers and magazines, journals etc are sent periodically for pulping or sent to the central administrative office which then sells it off to the dealers .
